(the "Fund")

Following an EGM convened on 8th October 2021, Shareholders voted in favour of a change to the Fund Investment Objective, Index, and Fund Name, as outlined below. We are writing to you as a Shareholder of the Company to advise of the following change to the supplement (the "**Supplement**") for the Company for the Fund below which will take effect as at 29th October 2021, or such later date as the Central Bank notes the revised Supplement to the Prospectus for the Fund (the "**Effective Date**").

The aim of the Index switch is to provide Shareholders with an exposure to the New Index that provides a broader exposure to the fixed rate, USD denominated high yield corporate bond market, including 144A Securities.

In addition, the New Index employs a “best in class” ESG methodology, under the Bloomberg SASB index framework, whereby the index optimises its ESG score and excludes issuers based on their ESG characteristics considering both their ESG rating and their involvement in certain controversial business activities, while controlling for active total risk. As a result of this change, the Fund's classification pursuant to Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector will change from Article 6 to Article 8.

The Fund will bear the costs associated with the index change. The attention of the Shareholders is drawn to the fact that the costs linked to the index change could have a negative impact on the net asset value of the Fund.

The Fund will retain all other characteristics, in particular the codes used in trading and the total expense ratio.

The Fund will continue to track its existing Index until the Effective Date, and will then track the new Index.
